AR081 - Art I

Subject Domain: The Arts
Subject: Art

Brief Description of Course
Art introduces students to a range of materials, skills and techniques. Art provides opportunities for imaginative exploration, development and communication of ideas. Students are encouraged to make creative and personal responses to specific tasks. Through experimentation of the selected material, students develop and refine skills in drawing and mixed media.

General Aims and Objectives
Creating and making
- To manipulate arts elements and principles effectively on scraperboard, paper and fabric
- To demonstrate a level of technical competence in the use of drawing skills, techniques and printing processes
- To develop pastel artworks which reflect personal art responses to specific tasks

Exploring and responding
- To research and critically analyse and interpret artworks using appropriate arts language
- To describe the stylistic, technical, expressive and aesthetic features of artworks created by a range of artists: ie. M.C Escher

Topics:
- Scraperboard
- Tone and texture drawing using dry pastels and oil pastels
- Printing onto paper and fabric
- Tonal landscapes

Time Allocation
- 5 periods per cycle for Semester 1

Prerequisites
- Nil

Special Requirements to be supplied by student
- Sketchbook, folio and book listed stationery
- Estimated Levy: $45

Assessment
- All class work; research and developmental work, practical projects and finished artworks
- Written work and assignments

AR082 - Art II

Subject Domain: The Arts
Subject: Art

Brief Description of Course
Art introduces students to a range of materials, skills and techniques. Art provides opportunities for imaginative exploration, development and communication of ideas. Students are encouraged to make creative and personal responses to specific tasks. Through experimentation of the selected material, students develop and refine skills in drawing and mixed media.

General Aims and Objectives
Creating and making
- To manipulate arts elements and principles effectively
- To demonstrate a level of technical competence in the use of skills, techniques and processes – drawing, painting and photography
- To develop artworks which reflect personal art responses to specific tasks

Exploring and responding
- To research and critically analyse and interpret artworks using appropriate arts language

Topics:
- Drawing: contour, tone
- Colour theory and research
- Monochromatic painting
- Photography and related artworks

Time Allocation
- 5 periods per cycle for Semester 2

Prerequisites
- Nil

Special Requirements to be supplied by student
- Sketchbook, folio and book listed stationery
- Estimated Levy: $45

Assessment
- All class work; research and developmental work, practical projects and finished artworks
- Written work and assignments
AR083 - Visual Communication I

Subject Domain: The Arts  
Subject: Visual Communication

Brief Description of Course
Students will continue to develop skills using a variety of mediums. Both two dimensional and three dimensional design solutions will be explored and presented. Students will develop skills in illustration and use the design elements and principles in the production of a visual communication.

General Aims and Objectives
- To present creative visual solutions using a variety of methods and mediums
- To develop design and rendering skills
- To develop an appreciation of both technical drawing and creative design

Topics may include:
- Knox City Council’s Project: Competition
- Orthogonal drawing: Toy design
- Cubes in one point perspective
- Cityscape in two point perspective
- Isometric lettering
- Self portrait

Time Allocation
- 5 periods per cycle for Semester 1

Prerequisites
- Nil

Special Requirements to be supplied by student
- Sketchbook, folio and book listed stationery
- Estimated Levy: $45

Assessment
- All class work; research and developmental work, practical projects and finished designs

AR084 - Visual Communication II

Subject Domain: The Arts  
Subject: Visual Communication

Brief Description of Course
Students will continue to develop skills using a variety of media. Both two dimensional and three dimensional design solutions will be explored and presented. Students will develop skills using the design elements and principles to produce clear visual communications.

General Aims and Objectives
- To develop skills in 3D construction
- To develop design and rendering skills
- To develop skills in using a variety of media
- To develop skills in communicating information

Topics may include:
- Monogram using gouache
- Paper engineering
- Model making
- Elements and Principles of Design

Time Allocation
- 5 periods per cycle for Semester 2

Prerequisites
- Nil

Special Requirements to be supplied by student
- Sketchbook, folio and book listed stationery
- Estimated Levy: $45

Assessment
- All class work; research and developmental work, practical projects and finished designs
AR085 - Media

**Subject Domain:** The Arts  
**Subject:** Media

**Brief Description of Course**  
This unit aims to introduce students to digital photography and video. Students will gain the ability to create media texts for a variety of audiences, presenting ideas and values in their productions. Students will develop their photography skills, as well as create video productions using filmic production techniques. They will also analyse the use of these production techniques in professional media texts. Students will develop an understanding of how media texts are created in a variety of genres, styles, traditions and cultures.

**General Aims and Objectives**
- To understand and use appropriate arts language related to media productions
- To produce photographic work which convey appropriate ideas and values
- To develop skills in problem solving and working collaboratively to create media products
- To understand and follow the correct safety for using digital photographic/video equipment
- To create different media products for specific audiences
- To compare, analyse, evaluate, and interpret the content, meaning and qualities in media works created in different social, cultural and historical contexts
- To give students a practical experience of working with others to produce a media product from pre-production through to post-production and distribution
- To develop an ability to discuss their own and others’ use of media elements, principles and/or conventions, skills, genres, techniques, processes, equipment and technologies

**Topics include:**
- Digital Photography
- Digital Video Production
- Film Analysis

**Time Allocation**
- 5 periods per cycle
- This unit is offered in both Semester 1 and 2

**Prerequisites**
- Nil

**Special Requirements to be supplied by student**
- Estimated Levy: $20 for materials
- A4 binder book

**Assessment**
- Film analysis activities
- Media folio
- Major production (video/photography)

DE081 - Outdoor Education

**Subject Domain:** Health and Physical Education  
**Subject:** Outdoor Education

**Brief Description of Course**  
The subject Outdoor Education will introduce students to basics in some outdoor experiences. Victoria contains some of the best national parks and bushland within Australia and this subject should give each student some skills to be able to stay overnight in the bush.

**General Aims and Objectives**
- Students will learn more about and see parts of God’s incredible and diverse creation
- Learn how to use and care for the bush at the same time
- This subject should give each student some skills to be able to stay overnight in the bush.
- Learn about mountain biking – maintenance and skills required
- Learn the skills of surfing and kayaking

**Topics**
- Hiking skills
- Tent pitching
- Outdoor cooking
- Mountain bike riding
- Kayaking
- Packing a back pack
- Orienteering
- Environmental care
- Surfing

**Time Allocation**
- 5 periods per cycle
- This unit is offered in both Semesters 1 and 2

**Prerequisites**
- Nil

**Special Requirements to be supplied by students**
- Estimated Levy: $198

**Assessment**
- Adoption of campcraft practices while on overnight camp
- Participation during outdoor experiences
- Presentation of research on an Australian adventurer.
**DR081 - Beginning Acting**

**Subject Domain:** The Arts  
**Subject:** Drama

**Brief Description of Course**
This unit aims to provide varied opportunities for students to perform and create dramatic works. Students will be introduced to the basic elements of the art of performance. The emphasis in this unit is on developing communication, confidence, commitment and cooperation.

**General Aims and Objectives**
By the completion of this unit students will have enhanced their:
- Communication skills & Social co-operation
- Confidence and self esteem
- Commitment and co-operation
- Ability to project their voice
- Stage presence
- Improvisational skills

**Topics**
- **Projection** – the ability to perform in a number of different situations and by heard and understood by the audience
- **Stage Presence** – the ability to draw an audience and use your body to express most effectively what it is you are trying to communicate, as well as increase the effectiveness other performers on stage
- **Improvisation** – The ability to think on one’s feet, especially in performance scenarios, to the effect of increasing the actor’s instincts
- **Group Interactions** – The skill of responding, giving place to, and enhancing scenes with other actors on stage, knowing when to fall to the background or take centre stage and everything in between

**Time Allocation**
- 5 periods per cycle for Semester 1

**Prerequisites**
- Nil

**Special Requirements to be supplied by student**
- Estimated Levy: $15

**Assessment**
- Individual participation in class activities
- Group participation on set class tasks
- Performance - Monologue (solo) Ensemble (large group)
- Written Journal Entries – including class summaries and theatre reviews

---

**DR082 - The Stage and the Body**

**Subject Domain:** The Arts  
**Subject:** Drama

**Brief Description of Course – PHYSICAL THEATRE**
This unit aims to provide varied opportunities for students to perform and create dramatic works. Students will be introduced to basic elements of performance art. The emphasis in this unit is on developing communication skills and confidence. Written reflections on their own work and on the performances of others are also a part of this unit of study.

**General Aims and Objectives**
- Communication skills through body language
- Social co-operation, confidence and self esteem
- Commitment and co-operation
- Understanding styles, forms and conventions of dramatic presentations
- Evaluate content, purpose and themes of selected drama and theatre
- To enhance communication in a public forum to convey worthwhile messages and biblical themes

**Topics**
- **Physical movement** – interpretation of poetry/biblical characters – leading to the presentation of a Monologue performance piece
- **Comedy** – the study of how body language affects humour. An investigation of mime and clowning.
- **Greek Theatre** – the use of ONLY the body to convey emotion and character
- **Stage Combat** – learning how to fight and safely “fall” in theatrical situations
- **Dalcrose** – The art of graceful movement

**Time Allocation**
- 5 periods per cycle for Semester 2

**Prerequisites**
- Nil

**Special Requirements to be supplied by student**
- Estimated Levy: $40

**Assessment**
- Individual participation in class activities
- Group participation on set class tasks
- Performance - Monologue (solo) Ensemble (large group)
- Written Journal Entries – including class summaries and theatre reviews
**DR083 - Beginning Dance**

**Subject Domain:** The Arts  
**Subject:** Dance

**Brief Description of Course**
This unit aims to introduce basic concepts of dance to the beginning student as well as strengthen the confidence and skill of gifted students. The emphasis of this unit will be on confidence in movement, creativity of physical expression and introduction to all basic styles of dance.

**General Aims and Objectives**
- To understand and appreciate basic styles of dance
- To experience practicing basic styles of dance
- To create and perform original dance pieces
- To be actively involved in school performances such as SPD
- To work as a dancer in solo and group situations
- To strengthen fluid movement and concentration
- To work cooperatively in group situations
- To build confidence and self-esteem as a dancer
- To distinguish and flourish in both improvisational and choreographed movement.

**Topics include:**
- All contemporary and traditional styles including, but not limited to, jazz, contemporary, hip-hop, ballet, tap and informal improve
- Group dance dynamics vs. solo dynamics
- Improvisation vs. choreography
- Dancing in character

**Time Allocation**
- 5 periods per cycle
- This unit is offered in both Semester 1 and 2

**Prerequisites**
- No prerequisites

**Special Requirements to be supplied by student**
- Estimated Levy: $15 for materials
- A4 binder book
- A4 folio

**Assessment**
- Class participation
- In-class performances
- Major Performance
- Research Task

**DT081 - Innovative Design**

**Subject Domain:** Technology  
**Subject:** Design Technology (Metals & Plastics)

**Brief Description of Course**
Technology involves the use of tools, machines, materials, techniques, and sources of energy to make work easier and more productive and to make leisure more enjoyable. A wide variety of learning activities will be called upon to focus student attention upon the topics covered. Considerable time will be given to developing student skill in the use of common hand tools. Technology (Metals and Plastics) uses natural and manmade materials.

Technology is more than a tool or a machine; its meaning is much broader than that. There is creativity, patience and skills in a process that starts with a human need and ends with the realization of a designed solution. It is a human activity, it is central to being human and integral to civilization. If we understand Technology in this way then not only does it include tools and techniques but also organizational and cultural aspects defined by our Christian values and beliefs.

**General Aims and Objectives**
- To develop basic skills in using tools for forming materials into useful articles
- To reflect upon the requirements of the design process and to practice creative ingenuity
- To understand that God gives a variety of specialized creative abilities

**Topics may include:**
- Materials Technology: natural and processed materials
- Safety in the workshop
- Design and creativity
- Integrated projects: a variety of projects to develop and establish the competent use of tools used with metals and plastics

**Time Allocation**
- 5 periods per cycle
- This unit is offered in both Semesters 1 and 2

**Prerequisites**
- Nil

**Special Requirements to be supplied by student**
- Estimated Levy: $85 for materials
- A4 Binder Book (to use as a notebook)

**Assessment**
- Marks assigned to workshop skills
- Projects
- Safety
- Design folio
DT082 - Mazes and Decorative Items

Subject Domain: Technology
Subject: Design Technology (Wood)

Brief Description of Course
Design and Technology aims to introduce and develop a systematic and creative approach to generating technological solutions. Students will gain the ability to apply knowledge and skills by using a variety of equipment, tools and materials while incorporating the elements of design.

Activities may include: designing and producing practical projects using wood as the main material; discussions and demonstrations on safe workshop practices; developing skills and knowledge of hand and power tools.

Technology is more than a tool or a machine; its meaning is much broader than that. There is creativity, patience and skills in a process that starts with a human need and ends with the realization of a designed solution. It is a human activity, it is central to being human and integral to civilization. If we understand Technology in this way then not only does it include tools and techniques but also organizational and cultural aspects defined by our Christian values and beliefs.

General Aims and Objectives
- To understand and use the design process
- To gain knowledge on the properties and characteristics for various timbers
- To produce creative projects
- To develop skills in using tools, machinery and equipment while producing practical work
- To understand and follow the correct safety procedures in the workshop
- To develop design and drawing skills

Topics may include:
- Designing and making creative wood projects including a maze with some metal and plastic
- Workshop safety
- Crafting techniques – manual and mechanical

Time Allocation
- 5 periods per cycle
- This unit is offered in both Semesters 1 and 2

Prerequisites
- Nil

Special Requirements to be supplied by student
- Estimated Levy: $65 for materials
- A4 binder book
- A4 folio

Assessment
- Marks assigned to design folio
- Marks assigned to workshop skills
- Classroom activities
- Completed projects
- Safety in the workshop

FT081 - Ready, Setty, Cook!

Subject Domain: Technology
Subject: Food Technology

Brief Description of Course
This unit explores many aspects of food. It introduces more advanced cookery processes than previously covered in Year 7. It also explores equipment and terminology used, healthy eating, why we eat and meal planning.

General Aims and Objectives
- To develop a deeper understanding of all types of practical cookery
- To understand nutrients and how our body uses them
- To explore healthy eating models and how to use them
- To understand God’s concern for our need for food and why we eat

Topics:
- Equipment
- Terminology
- Food hygiene/poisoning
- Healthy eating models
- Why we eat
- Meal planning

Time Allocation
- 5 periods per cycle for Semester 1

Prerequisites
- Nil

Special Requirements to be supplied by student
- Estimated Food Levy: $60
- Display folder
- Suitable containers to transport food

Assessment
- Practical work and written evaluations
- Tests
- Assignment
- Book work
FT082 - To Market, To Market

**Subject Domain:** Technology  
**Subject:** Food Technology

**Brief Description of Course**  
This unit explores many aspects of food. It introduces more advanced cookery processes than previously covered in Year 7. It also explores different foods that we eat and how they work.

**General Aims and Objectives**
- To develop a deeper understanding of all types of practical cookery
- To explore different food groups that we are used to eating everyday (that can be found in any market) and how they work
- To understand nutrients and which foods they are found in
- To understand God’s concern for our need for food and why we eat

**Topics:**
- Equipment  
- Terminology  
- Food hygiene/poisoning  
- Milk and milk products  
- Cereals  
- Fruit  
- Vegetables  
- Eggs

**Time Allocation**
- 5 periods per cycle for Semester 2

**Prerequisites**
- Nil

**Special Requirements to be supplied by student**
- Estimated Food Levy: $60  
- Display folder  
- Suitable containers to transport food

**Assessment**
- Practical work and written evaluations  
- Tests  
- Assignment  
- Book work

---

HE081 - Healthy Choices

**Subject Domain:** Health & Physical Education  
**Subject:** Health

**Brief Description of Course**  
Students will examine physical and spiritual aspects to various issues related to their personal health.

**General Aims and Objectives**
- To develop skills and gain knowledge of safety and first aid  
- To understand the value that God places on the health of the human body  
- To develop students’ ability to make healthy decisions in relation to several different issues  
- To participate in a surfing lesson, learning aspects of safety during a physical activity

**Topics**
- Alcohol and binge drinking  
- Decision making  
- Safety and first aid in the community  
- Nutrition

**Time Allocation**
- 5 periods per cycle for Semester 1

**Prerequisites**
- Nil

**Special Requirements to be supplied by student**
- Estimated Levy: $40 (includes workbook)

**Assessment**
- Class work  
- Projects  
- Tests
HE082 - Healthy Perspectives

Subject Domain: Health & Physical Education
Subject: Health

Brief Description of Course
Students will examine physical, social, mental and spiritual aspects to various issues related to their personal health.

General Aims and Objectives
• To understand and develop students’ identity and personal skills
• To understand the value that God places on the health of the human body
• To develop students’ ability to make healthy decisions in relationships
• To study and understand the systems of the body and how they work in conjunction with each other
• To participate in a physical activity such as rock climbing

Topics
• Interpersonal skills
• Personal identity
• Relationships
• Systems of the human body

Time Allocation
• 5 periods per cycle for Semester 2

Prerequisites
• Nil

Special Requirements to be supplied by student
• Estimated Levy: $35 (includes workbook)

Assessment
• Class work
• Projects
• Tests

MU081 – Modern Musician

Subject Domain: The Arts
Subject: Music

Brief Description of Course
This unit is designed specifically for students who have enjoyed their Year 7 core experience, or have a flare for Music. In order to prepare them for professional standards in older year levels, students are given the basics of theory, rhythm and music analysis. Students are also encouraged to appreciate music on various levels of genre and style. Students will work in groups and as individuals to work on performances to be presented to the class. Students learn the history of Popular Music and also develop their aural and theory abilities through various assessments

General Aims and Objectives
• To encourage students’ continuing appreciation and participation in school Music
• To prepare students to reach the professional standards of musicianship that other students are achieving across the city, state and globe
• To further students’ ability to play an instrument
• To foster confidence and enjoyment in performing
• To enable students to further develop their understanding of music and how it can be used in the advancement of the Kingdom of God.
• To analyse the use of musical elements in the creation of music

Topics
• Theory of Music
• Aural
• Rhythm
• Composition
• Performance

Time Allocation
• 5 periods per cycle for Semester 1

Prerequisites
• Students must be able to sing confidently or play an instrument

Special Requirements to be supplied by student
• Estimated Levy: $15

Assessment
• Written, Performance and Aural Tests
MU082 – Making Music

Subject Domain: The Arts
Subject: Music

Brief Description of Course
This unit is designed specifically for Christian musicians in today’s world. All aspects of the live worship band will be studied, including the set of instruments. Students who select this subject must be able to sing confidently or play an instrument. The class will play music as a group from time to time and students will be expected to perform in front of their peers. Students will also study the development of Worship music as well as Western and non-Western Folk music.

General Aims and Objectives
- To assist in setting up a worship band
- To understand the philosophy of being on a worship team
- To apply skills relating to the electronic aspects of music performance
- To further students’ ability to play an instrument
- To encourage participation in musical groups
- To foster confidence and enjoyment in performing
- To analyse the use of musical elements in the creation of music
- To understand music is God’s gift to us and is everywhere in the universe to praise God
- To develop a leadership role in Music at the school
- To encourage students to use their talents and abilities in their community and church

Topics
- Worship theory
- Performance
- Theory of Music
- Aural
- Rhythm
- Folk Music

Time Allocation
- 5 periods per cycle for Semester 2

Prerequisites
- Students must be able to sing confidently or play an instrument

Special Requirements to be supplied by student
- Estimated Levy: $15

Assessment
- Written, Performance and Aural tests

SC081 - Science Elective

Subject Domain: Science
Subject: Science

Brief Description of Course
This unit provides the opportunity to study a number of topics not covered in the same detail in the core Science course. The course is both practical and theoretical and will enhance a student’s general understanding of the significance and limitations of scientific inquiry in regard to unfolding the wonders of God’s Creation.

General Aims and Objectives
- To gain an appreciation of the created universe
- To encourage skills of enquiry, hypothesis and testing
- To promote an interest and understanding of the knowledge and processes of science
- To understand both the benefits and limits of scientific inquiry
- To encourage students to consider the ways in which people have used scientific knowledge and methods to meet particular needs
- To debate controversial scientific discoveries and applications
- To plan, design and perform experiments
- To develop students’ understanding of the evolving nature of science and technology
- To further investigate the principles of the major disciplines of Science, Biology, Chemistry and Physics

Topics to be selected from:
- Amazing Machines
- Anatomy
- Astronomy
- Biochemistry of the body
- CSI: Forensics
- Engineering
- Nanotechnology
- Science of Conflict

Time Allocation
- 5 periods per cycle
- This unit is offered in both Semester 1 and 2

Prerequisites
- Nil

Special Requirements to be supplied by students
- Estimated Levy: $50

Assessment
- Assignments / Project Work
- Practical Reports
- Oral & visual presentations
- Tests
